MEMBER RESPONSIBILITY MATRIX (MRM)

Member Name	Assigned Role	Specific Responsibilities
Sasil, Perlin Precious	Project Leadership	Coordinates project activities and monitors overall project progress.
Laylo, Hannah Alexa	Task Coordination	Organizes assigned tasks and helps ensure that project activities are completed on schedule.
Sasil, Perlin Precious	Project Monitoring	Monitors the progress of project development and identifies pending deliverables.
Laylo, Hannah Alexa	Code Commenting	Adds comments and explanations to the Google Colab implementation.
Sasil, Perlin Precious	Code Documentation	Explains important code sections and documents their purpose.
Sasil, Perlin Precious	Limitations Documentation	Prepares the limitations section of the IEEE report.
Sasil, Perlin Precious	Conclusion Writing	Summarizes the project's findings and overall outcomes.
Sasil, Perlin Precious	Recommendations and Future Improvements	Identifies possible improvements and future development opportunities for the chatbot.
Sasil, Perlin Precious	Documentation Review	Reviews assigned report sections for clarity and consistency.

Tuguinay, Nanelle	RAG Experimentation	Conducts experiments using the implemented RAG system.
Tuguinay, Nanelle	Chatbot Testing	Tests chatbot responses using the prepared evaluation questions.
Tuguinay, Nanelle	Parameter Configuration Testing	Tests different chunk size, chunk overlap, and Top-K configurations.
Tuguinay, Nanelle	Retrieval Testing	Examines the retrieved document chunks to assess their relevance to the questions.
Laylo, Hannah Alexa	Answer Evaluation	Checks generated responses against expected answers and identifies incomplete or incorrect information.
Tuguinay, Nanelle	CPU Performance Testing	Runs experiments using CPU execution and records processing times.
Tuguinay, Nanelle	GPU Performance Testing	Runs experiments using GPU execution and records processing times.
Tuguinay, Nanelle	Indexing Time Recording	Measures and records the time required to create the vector index.
Tuguinay, Nanelle	Response Time Recording	Records the average response time for chatbot queries.
Tuguinay, Nanelle	Execution Time Recording	Documents the total execution time for each experimental configuration.
Tuguinay, Nanelle	Experimentation Logging	Maintains the initial draft of experimental configurations, outputs, and recorded results.
Tuguinay, Nanelle	Performance Comparison	Compares CPU and GPU execution results across the tested configurations.
Laylo, Hannah Alexa	IEEE Report Preparation	Prepares the majority of the IEEE research report.
Laylo, Hannah Alexa	Technical Documentation	Documents the technical implementation and experimental procedures in the report.

Sasil, Perlin Precious	Manuscript Formatting	Organizes and formats the IEEE report according to the required structure and guidelines.
Laylo, Hannah Alexa	Experimentation Log Finalization	Consolidates and finalizes the experimentation logs and recorded results.
Laylo, Hannah Alexa	Results Organization	Arranges experimental findings and performance measurements for presentation.
Laylo, Hannah Alexa	Table Preparation	Organizes experimental data into tables for the report and deliverables.
Laylo, Hannah Alexa	Results Presentation	Prepares the presentation of experimental findings and comparisons.
Laylo, Hannah Alexa	Documentation Editing	Reviews and improves the organization, wording, and formatting of the manuscript.
Laylo, Hannah Alexa	Deliverables Preparation	Organizes the required project files, reports, logs, and supporting documentation for submission.
Sasil, Perlin Precious	Final Documentation Review	Checks the completeness and consistency of the final report and experimental records.
